## Introduction

The national report *A Mind at Work: Maximizing the Relationship Between Mindset and Student Success* and this methodology supplement explore student academic mindset as defined by *growth vs. fixed mindset, self-efficacy, relevance of academic experience, and sense of belonging*. Data suggest academic mindset relates to student engagement measured by five CCSSE benchmarks (i.e., *Active and Collaborative Learning, Student Effort, Academic Challenge, Student-Faculty Interaction, Support for Learners*). Data also suggest a positive correlation between GPA and items within each of the four components of academic mindset (shown in the national report) as well as the overall academic mindset index included in this supplement. To identify data highlighted in the report, a series of analyses were conducted and reviewed; this methodology supplement includes the results presented in the report as well as the results from all other analyses that were conducted in preparation of this national report.

## Methods

### About the Surveys

**Community College Survey of Student Engagement (CCSSE).** CCSSE is a paper-pencil survey administered in class during the spring term to students enrolled in randomly selected credit-bearing courses. When responding, students are instructed to consider their collegiate experiences during the current academic year. Survey items focus on educational practices and student behaviors associated with student

engagement. Completed surveys, once scanned into a data set, are reviewed for several Center exclusion criteria. Students who meet the following criteria are excluded from the analysis data set: students under the age of 18; students who did not indicate their enrollment status on Item 2 (ENRLMENT); students who indicated that they have taken the survey in another class this term on Item 3 (TAKEB4); and respondents who skipped all of the 19 sub-items within Item 4, answered “Never” to all 19 sub-items, or answered “Very often” to all 19 sub-items. These variables include CLQUEST, CLPRESEN, REWROPAP, INTEGRAT, CLUNPREP, CLASSGRP, OCCGRP, TUTOR, PARTICCBP, EMAIL, FACGRADE, FACPLANS, FACIDEAS, FACFEED, WORKHARD, FACOTH, OOCIDEAS, CONVSTUDIFF, and SKIPCLAS.

In the 2018 CCSSE administration, the Center included a special 20-item set (see table below) on academic mindset. These items were written to assess students’ perceptions of their ability to learn new concepts and experiences with academic mindset. The items were grouped into four components: *Growth vs. fixed mindset* (Items 8, 12, 13, 17, and 20), *self-efficacy* (Items 3, 5, 11, 14, and 18), *relevance of academic experience* (Items 2, 7, and 16), and *sense of belonging* (Items 1 and 4). A five-point response scale was used for all 20 items: a) Strongly agree, b) Agree, c) I neither agree nor disagree, d) Disagree, and e) Strongly disagree.

Survey items for academic mindset
1. I feel welcome and respected <u>at this college</u> .
2. <u>This college</u> is preparing me for what I plan to do in life.
3. I can learn all of the material being presented in my courses this academic term.
4. I have good relationships with others <u>at this college</u> .
5. I can become more intelligent by working hard on my studies.
6. *I have a certain amount of intelligence, and I really cannot do much to change it.
7. What I learn in my classes is necessary for my success in the future.
8. I can always greatly change how intelligent I am.
9. *I can learn new things in math, but I cannot really change my basic intelligence in math.
10. *My intelligence is something about me that I cannot change very much.
11. I can do well on tests, even when they are difficult.
12. No matter how much intelligence I have, I can always change it quite a lot.
13. In English (reading and writing), I can change my intelligence a lot.
14. When facing difficult tasks, I am certain that I will accomplish them.
15. *I can learn new things, but I cannot really change my basic intelligence.
16. I understand how my academic work is preparing me for the career field in which I am interested.
17. In math, I can change my intelligence a lot.
18. I am confident that I will be able to keep up with my coursework <u>at this college</u> .
19. *I can learn new things in English (reading and writing), but I cannot really change my basic intelligence in English.
20. I can change my intelligence a lot.

Notes: \* Items were not used in this national report (see discussion below)

Fifteen of the items were written in a positive manner such that agreement with the item indicated a productive academic mindset; the other five items were worded negatively such that agreement indicated a non-productive academic mindset. The negatively worded prompts should have shown similar, but reversed, response patterns as similar positively worded items allowing for a limited check of internal consistency. A close analysis of responses to the 20 items revealed that the five negatively worded demonstrated a very different distribution of responses than anticipated. A review of the items and their responses suggest that students may not have understood the prompts

as intended. Due to this unexpected response pattern, these five items were dropped from further analyses.

### **Community College Faculty Survey of Student Engagement (CCFSSE).**

CCFSSE is a companion to the CCSSE student survey. The online survey invites all faculty teaching CCSSE eligible courses at participating colleges to contribute their front-line perspectives on student engagement. CCFSSE elicits information from faculty about their perceptions regarding students' educational experiences, their teaching practices, and the ways they spend their professional time-both in and out of the classroom. Five additional mindset items were added to the faculty survey for the 2018 administration.

### **Data**

Data for *A Mind at Work: Maximizing the Relationship Between Mindset and Student Success* were drawn from the 2018 administrations of CCSSE and CCFSSE. Overall, 263 community colleges participated in the 2018 CCSSE administration resulting in 136,393 student responses. Among this group, 159 colleges administered the academic mindset items, generating 82,821 responses. Unless otherwise noted, all analyses in this report using CCSSE data are based on this respondent data set.

Of the CCSSE colleges, 84 administered CCFSSE, and 6,761 faculty members responded. The following table summarizes the counts for colleges that participated in the 2018 CCSSE and CCFSSE administrations.

Survey Instrument	Full 2018 participation		Number of Colleges that administered the Mindset Items	
	Number of Colleges	Number of Respondents	Number of Respondents	Number of Respondents
CCSSE	263	136,393	159	82,821
CCFSSE	84	6,761	84	6,761

**Excluded Respondents and Recoded Variables.** In the 2018 CCSSE survey, the gender variable has four response options (Man, Woman, Other, and I prefer not to respond). We recoded this variable into two categories (i.e., Man, Woman). Two other response options (“Other” (0.56% n=461) and “I prefer not to respond” (1.28% n=1056) were recoded as missing and excluded from analyses involving gender.

GENDER	Frequency	Percent	Cumulative Frequency	Cumulative Percent
Man	34,964	44.13	34,964	44.13
Woman	44,259	55.87	79,223	100
Other	461			
I prefer not to respond	1,056			
Missing	2,081			

**Calculated Academic Mindset Variables.** One of the research questions we wanted to address is whether there is a relationship between academic mindset and the CCSSE benchmarks. To accomplish this, we created an “Academic Mindset Scale.” The 15 items retained for the analyses were recoded to a scale of -2 to +2 with “I neither agree nor disagree” as the middle category given a value of 0 (zero). The average of these items created the academic mindset scale. The mean and standard deviation of this new index variable were calculated: mean = 1.0627; standard deviation = 0.54475.

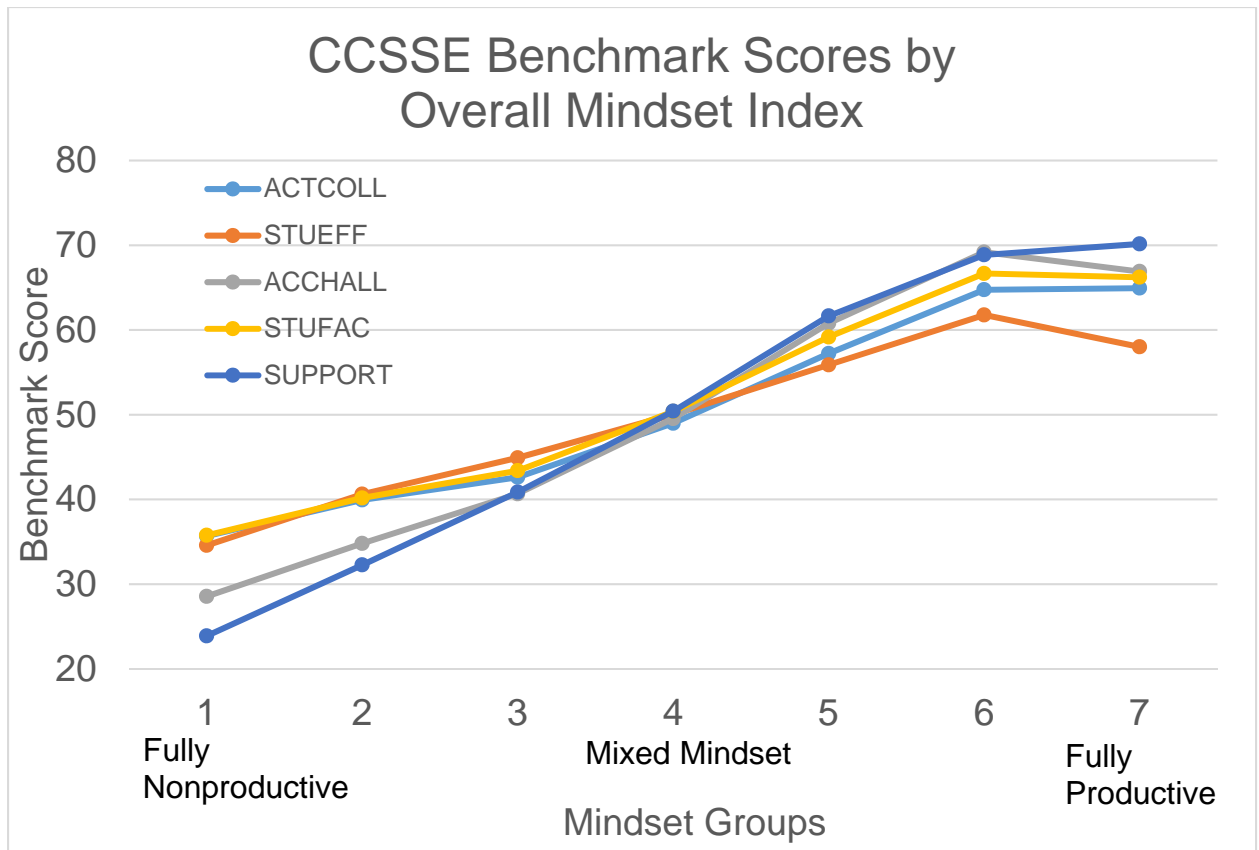

Based on the mean and standard deviation, seven groups were formed: respondents who fell in the range between one-half of a standard deviation below the

mean to one-half of a standard deviation above the mean were coded into the middle group (4); the remaining respondents were coded into the other groups above and below group 4 based on one full standard deviation from the cut-point of the adjoining group. Students who fell furthest to the left of the mean (more than 2.5 standard deviations below the mean) were labeled as having a fully nonproductive academic mindset while the respondents at the opposite end were classified as having a fully productive academic mindset. Because 2.5 standard deviations above the mean is 2.4246, group 6 was cut off at less than 2.0 and any respondent with an index score of +2.0, the maximum score possible on the index, were coded into group 7, a fully productive academic mindset. It should be noted that the number of respondents in the two extreme groups is very small and the largest group are those with a mixed mindset as shown in the following table.

Group	1	2	3	4	5	6	7
Number of respondents (N=78956)	835	4,596	16,635	32,461	19,607	1,545	3,277
Percentage of respondents*	1.1%	6.0%	21.1%	41.1%	25.0%	2.0%	4.2%

\* Percentages do not total 100 percent due to rounding.

The following graph shows the average benchmark score for each of the five CCSSE benchmarks by the mindset index.

## Analyses

Benchmarks are groups of conceptually related survey items that focus on institutional practices and student behaviors that promote student engagement—and that are positively related to student persistence and completion. The five *CCSSE* benchmarks of effective educational practice in community colleges are active and collaborative learning (ACTCOLL), student effort (STUEFF), academic challenge (ACCHALL), student-faculty interaction (STUFAC), and support for learners (SUPPORT). To learn more about how *CCSSE* benchmarks are calculated, please see [https://www.ccsse.org/survey/docs/How\\_Benchmarks\\_are\\_Calculated\\_2017.pdf](https://www.ccsse.org/survey/docs/How_Benchmarks_are_Calculated_2017.pdf)

The analyses conducted for the national report and this supplement include simple frequencies and cross-tabulations involving individual items and item pairs. Means were used for the analysis of benchmark scores. The FREQ procedure in SAS 9.4 was used to calculate the frequencies, percentages, and cross-tabulations of all student responses to the main *CCSSE* and the faculty responses to the five *Academic Mindset* items in *CCFSSE*. Demographic tables are presented first, followed by frequencies and cross-tabulations. The MEANS procedure in SAS 9.4 was adopted to analyze benchmarks. Results in this document are presented in the order they appear in the national report; results of analyses not included in the national report are then presented in the order they appear in the survey.

**Weighting.** Sampling procedures for *CCSSE* introduce a known bias resulting in full-time students being overrepresented among respondents (see “Are Your Data Worth the Weight?” for a discussion of sampling and weighting at <http://www.CCSSE.org/center/publications/newsletter/14.1/>). With the exception of frequencies for student demographics, enrollment status, and cross-tabulations involving enrollment status (ENRLMENT), all results presented in the national report and this methodology supplement are weighted. Because of weighting, frequency counts will include decimal points.

## Results

(Results begin on the next page)

The FREQ Procedure

Thinking about this current academic term, how would you characterize your enrollment at this college?

ENRLMENT	Frequency	Percent	Cumulative Frequency	Cumulative Percent
Part-Time	22,728	27.44	22728	27.44
Full-Time	60,093	72.56	82821	100.00

The FREQ Procedure

1. I feel welcome and respected at this college

	q1	Frequency	Percent	Cumulative Frequency	Cumulative Percent
Strongly disagree		487	0.62	486.8736	0.62
Disagree		1,174	1.49	1661.043	2.11
I neither agree nor disagree		6,923	8.80	8584.277	10.91
Agree		25,794	32.79	34378.42	43.71
Strongly Agree		44,279	56.29	78657.34	100.00

Frequency Missing = 4163.6642956

2. This college is preparing me for what I plan to do in life

	q2	Frequency	Percent	Cumulative Frequency	Cumulative Percent
Strongly disagree		994	1.26	993.5803	1.26
Disagree		2,434	3.10	3427.861	4.36
I neither agree nor disagree		11,206	14.26	14633.68	18.62
Agree		30,137	38.35	44770.69	56.97

q1	1. I feel welcome and respected at this college	21440	1.4395522	0.7562005
q2	2. This college is preparing me for what I plan to do in life	21422	1.1721128	0.8861849
q3	3. I can learn all of the material being presented in my courses this academic term	21394	1.2011779	0.8537776
q4	4. I have good relationships with others at this college	21403	1.1511003	0.8645091
q5	5. I can become more intelligent by working hard on my studies	21407	1.4731163	0.7476107
q6	6. I have a certain amount of intelligence, and I really cannot do much to change it	21344	0.5910326	1.1940348
q7	7. What I learn in my classes is necessary for my success in the future	21377	1.1677504	0.9362254
q8	8. I can always greatly change how intelligent I am	21346	1.1024079	0.9289124
q9	9. I can learn new things in math, but I cannot really change my basic intelligence in math	21158	0.1804046	1.2121940
q10	10. My intelligence is something about me that I cannot change very much	21225	0.6335925	1.1330506
q11	11. I can do well on tests, even when they are difficult	21266	0.5720399	1.0847929
q12	12. No matter how much intelligence I have, I can always change it quite a lot	21233	0.7696039	0.9507192
q13	13. In English (reading and writing), I can change my intelligence a lot	21215	0.8782937	0.9363085
q14	14. When facing difficult tasks, I am certain that I will accomplish them	21251	1.0328455	0.8441654
q15	15. I can learn new things, but I cannot really change my basic intelligence	21210	0.4177746	1.1419811
q16	16. I understand how my academic work is preparing me for the career field in which I am interested	21252	1.1187182	0.9393012
q17	17. In math, I can change my intelligence a lot	21140	0.6201514	1.0526563
q18	18. I am confident that I will be able to keep up with my coursework at this college	21166	1.1710290	0.8447354
q19	19. I can learn new things in English (reading and writing), but I cannot really change my basic intelligence in English	21146	0.4094391	1.1233474
q20	20. I can change my intelligence a lot	21165	0.9507678	0.9620639

----- Thinking about this current academic term, how would you characterize your enrollment at this college?=Full-Time -----
